

CUMBERLAND FARMS – FIELD CHANGE PROPOSAL – WOOD GUIDERAIL

A request has been made by the designer of the Cumberland Farms project on Boston Turnpike to enable the installation of a wooden guiderail along the easterly property line, where it abuts the antiques plaza next door.

The grade change between the properties warrants the placement of the guiderail according to the designer.

Attached is a copy of the site plan and a photo of the fence at another location.

This can be treated as a simple field change if the Commission is amenable.
