Thanks Mindy. What is the IW Agency's meeting schedule in January and February? I think it would be useful to have representation by PZC also- some of what I'd like to discuss involves development induced by sewer availability, neighborhood character, etc., in addition to the structure and function of wetlands (including the lake ecosystem). Perhaps a special meeting, or invite some from PZC? Or perhaps an IW Meeting specifically regarding waterfront activities beaches, walls, etc., and a subsequent IW/PZC special meeting about the whole of watershed and lake management. Hopefully I'll have my building application done by then- it has been a slow process getting the site plan etc. prepared.

Hi Bob!

An in-person workshop/meeting would be great! We are currently reviewing the Agency's availability but it's looking like January would be a good time. We'll keep you updated!

Best,
Mindy Gosselin

Not a problem. I can attend in the annex, with a mask unless things change. For some formats, meetings, Zoom is fine (actually very convenient). But there isn't a substitute for in-person dialog for other interactions. I've found that making presentations at on-line professional conferences difficult- presenting to a computer screen is different than presenting to people.
