1712 Main Street, Coventry, CT 06238

DATE: April 20, 2022

FROM: Close, Jensen, and Miller, P.C. (CJM) - Agent

SUBJECT: Application 22-13W – Hop River Road Bridge
Replacement of Bridge No. 04446 – Hop River Road over Hop River
Staff Review Memorandum

Regarding the comments provided in the Wetlands Staff Review Memorandum dated April 18, 2022, please find the following responses:

Coventry Comments	CJM Response
Public Hearing Requirements	The Town, as the owner, has posted signage and mailed notices to the abutting property owners.
Similarly to what was provided on sheet no. 1.04 – Wetland/Watercourse Impact Plan, create a table for permanent and temporary wetlands and upland review area impacts for the Town of Coventry. It would also be beneficial to summarize the impact.	A table was created and added to the Wetland/Watercourse Impact Plan sheet (1.04) of the revised Permit Plan set dated April 20, 2022. The impacts are summarized in the revised Project Description.
Consider changing the symbols on sheet no. 104, the symbol for temporary wetland/watercourse impact blends in with symbol for upland review area (Coventry).	The temporary wetland/watercourse impact hatching has been revised.
