Violation Framework: there is a recommended structure on the CT DEEP website and I also found a good example from East Windsor

DPW Blanket Permit: It is not recommended, technically only CT DEEP can issue a General Permit or Blanket permit. Darcy Winther recommended:

- DPW Permit for routine maintenance in upland review area and a separate one for maintenance in wetlands
 - A list would be submitted with the permit of the included activities, it can be modified if necessary
 - Can condition this to be reviewed on a yearly basis
- Allow agent approval for town maintenance that is of no or less impact, typically located within the upland review area
 - We would need to modify our thresholds because right now all town projects go to the agency
